Who Could We Ask? Lee D. Kassan 2007-05-23 Leading gestalt therapist Michael Kriegsfeld led therapy groups around the world. Gestalt therapy focuses on conflicts between aspects of the self, and the attempt by patients to avoid responsibility for their choices and behavior. When Kriegsfeld died suddenly in 1992, he left 170 three-hour-long videotapes of his work with groups in the United States and Europe. Through excerpts from these tapes, author Lee Kassan provides examples of Kriegsfeld's methods that will be of use to every therapist regardless of his or her field. Divided into five main sections, Who Could We Ask? The Gestalt Therapy of Michael Kriegsfeld delivers a revealing, personal portrait of Kriegsfeld. Kassan explains Kriegsfeld's theory of the gestalt model as an alternative to the medical model that dominates the therapy field today. Kassan brilliantly illustrates and explains the procedures that Kriegsfeld used in gestalt therapy. Informative and intimate, Who Could We Ask? is a rare glimpse of a master therapist at work.

Geoffrey's theater, extra-marital and self-excusing waywardness keep young Alex away from her vicarage background and, as his mistress, she is committed to being his refuge. Marriage to him, after his affairs with Lady Carne, results in her early widowhood when he is killed in a sentimental gesture during the war; and, later years, bring Lady Carne's youngest son, Ludo, to Alex' doorstep. Ludo, running away from America, forgery, embezzlement and a doubt of his manhood, rouses Alex' dedication -- and, finding in her sexual reassurance, works out the truth of his parentage, deceiver her as to the depth of his savage climate and writes a finish with young, drunken Elie, leaving Alex to live with unanswered questions."--Kirkus.

Ask The Sales Coach-Practical Answers to the Questions Sales People Ask Most Susan A. Enns 2019-02-20 Contrary to the popular belief, sales people don't rely on "the gift of the gab" to be successful.

Actually, the opposite is true. The best sales professionals spend far more time asking and listening than they do talking and selling. They ask questions of their customers; they ask questions of their colleagues, and they ask questions of their managers. If Oxford defines curiosity as the strong desire to know or learn something, then by that definition, sales people are curious by nature. In fact, that's how sales professionals learn to be professional in the first place. This is a collection of practical answers to questions sales people ask most. Written by Susan A. Enns, a professional sales coach with a proven track record of sales excellence over her 30 plus year career. Her accomplishments include consecutively being the top sales rep in Canada, managing the top sales branch, and achieving outstanding sales growth in a national channel sales organization. She has written several books about sales and sales management and has created numerous automated sales tools. Her work has been published in several locations numerous times and has sold on five separate continents. As such, over the years, Susan has been asked many questions by many sales people. After a while, she saw that sales people, regardless of their experience, the products they sell, the industries in which they operate, or the countries where they sell, all share similar curiosities. In other words, although the wording may be different when asked in an email or when asked in person, sales people all ask the same questions, the most common of which are answered in this ebook. As the old saying goes, the only stupid questions are the ones unasked. As a sales professional, you should never be afraid to "Ask the Sales Coach" because you will learn so much from the answers! - "Susan really knows the selling world. She's honest, articulate, bright, giving, highly competent, personable and a top professional. Welcome her. It's the right thing to do." - "Our company hired Susan as our sales coach. She has helped me make more appointments, close more deals and make more money. The 3 most important concepts in sales. I would recommend any sales force hire her to help boost business sales". - "Susan ...understands the sales process intimately and is able to create a management process around it that drives sales people to accomplish their goals." - "Susan knows her stuff. She brings many years of great sales experience and success to anyone who wished to improve their skills in sales. She is very personable, and is not afraid to tell it like it is. I would recommend anyone (and I have) to Susan, her website, her books if you want to become a better sales person." - "Thanks for the training... I made my quota this year in May!"

Ask that Mountain Dick Scott 1975 Parihaka has become a byword for Maori refusal to yield land, culture and dignity to New Zealand's colonial government. Well after the end of the New Zealand Wars, the people of this small settlement at the foot of Mt Taranaki held out against the encroachments of Pakeha settlers in a struggle that swapped the weapons of war for the weapons of peace. Taking as their symbol the white feather, the chiefs Te Whiti and Tohu led Parihaka in one of the world's first-recorded campaigns of passive resistance. Maori ploughmen wrote its message across the settlers' pastures, and Maori fencers underlined the point by throwing barriers across the queen's highways. Withstanding repeated military action, the spirit of resistance born at Parihaka kept alive the flame of that supposedly 'dying race', the Maori. **Ask That Mountain** draws on official papers, settler manuscripts and oral history to give the first complete account of what took place at Parihaka. Now in its ninth edition, this seminal work was in 1995 named by the Sunday Star-Times as one of the ten most important books published in New Zealand.
